Outstanding Capability!

ComNet[®] 7000 Series

Seize the Spotlight!

Chungho Comnet provides the most affordable, user friendly and cost effective models. The next series of the ComNet 7000 Series is designed to create efficient self-service with advanced functions. It has bright features, outstanding capabilities and excellent qualities. The ComNet 7000 Series is ready to create a new generation in the global ATM market.

Reliability

This innovative ATM is designed, with a powerful CPU and durable CDM which can handle from 1,000 to 8,000 notes. It further strengthens the brand reputation of the ComNet 7000 Series range in the U.S, Canada, South Africa and rest of the world.

Security

With its UL291 Business Hour cabinet, PCI certified EPP, security camera, EMV card reader, the ComNet 7000 Series is equipped for the highest level protection.

High Capacity

The ComNet 7000 Series manages large capacities of cassettes and high transaction volumes. It supports 4 denominations from 1,000/2,000 notes to 8,000 notes, and a receipt printer with large storage capacity.

Customization

Our ComNet 7000 Series technology can support future compliance and application needs in the banking industry by offering various options based on the customers' specific needs.

ComNet® 7000 Series
